President's Message

Curtis Ray, Jr., CPD, FASPE

Happy December everyone, hope you all had a wonderful Thanksgiving, spending time with family and friends, I know April and I did.

As we get ready to turn the corner for a calendar year, everyone is getting ready for the holidays. Please let's keep those who are less fortunate in mind during the holiday season by giving back. Please donate to our charity drive to Daystar Life Center. So please either bring gift cards to our December meeting or go to the link below do donate.

<https://square.link/u/lm3RtMbl>

I want to take a minute to thank our Chapter Sponsors for 2025 and encourage any new companies who wish to take part in the program to contact Richard Little (richard.little@viega.us).

- ◆ Platinum – SSA & Wilson Girgenti
- ◆ Gold – Viega
- ◆ Silver – Carr Company, Harry Warren, Marsh & Moore, Phoenix Engineering, Volt Air
- ◆ Bronze – McWane Plumbing Technical Services
- ◆

Congratulations to 50 plumbing industry professionals who passed the 2025 Certified Plumbing Design Technician (CPDT) exam and now can use the CPDT designation after their name to signify their expertise in plumbing system design. Of them was one of our own, Royce Jacob Gunter, CPDT.

As we come close to the end of the year, I want to take a minute to wish all members and their families a safe and wonderful Holiday Season.

Looking forward to seeing you at the next dinner meeting.

A handwritten signature in black ink, appearing to read 'Curtis Ray', written in a cursive style.

Curtis Ray, CPD, FASPE

V.P. Technical

Todd Rebhahn, CPD

DECEMBER'S TECHNICAL MEETING

Tuesday, December 9, 2025

**Location: Sheraton Tampa Brandon Hotel
10221 Princess Palm Avenue, Tampa, FL 33610**

GAS SAFETY AND UTILITY CONTROL DESIGN CONSIDERATIONS

Sheraton Tampa Brandon Hotel
10221 Princess Palm Ave, Tampa, FL 33610

4:30-5:30pm Happy Hour & Tabletop Presentation
5:30-6:00pm Business Meeting
6:00-6:30 Dinner
6:30-7:30pm Technical Presentation

Register on our website:

<https://wcf-aspe.com/meetinginfo.php>

\$35.00 Pre-registration (on or before noon on Friday before our Tuesday technical session)

\$45.00 Late registration (after noon on the Friday before our Tuesday technical session or at the door)

Presenter: Ryan Tassi – Technical Sales Engineer, American Gas Safety

Ryan is a Technical Sales Engineer specializing in plumbing and HVAC systems, with a growing expertise in gas safety and utility controls. He works closely with contractors, engineers, and representatives, providing system design support, product expertise, and technical assistance to ensure the integration of reliable gas safety solutions in commercial and industrial projects. He remains actively involved in the ASPE and ASHRAE chapters in Tampa, Florida, engaging with industry professionals and staying at the forefront of advancements in gas safety and building system technologies.

Description:

By the end of this class, attendees will gain a stronger understanding of utility control codes, including IFGC, NFPA 54, and CSD-1, along with the limitations of each. They will learn how to enhance gas, water, and electrical system safety beyond minimum code requirements and explore best practices for controlling these utilities across key applications such as science labs, boiler and mechanical rooms, commercial kitchens, and outdoor gas features. Attendees will also develop a foundational understanding of gas types and the unique considerations associated with each.

HOLIDAY DONATION DRIVE

Please join us this year for our holiday drive to be held in November and December. At our dinner meetings on November 11th and December 9th we will be collecting nonperishable food products. In addition, between November 11th and December 19th we will be collecting monetary donations.

If you are unable to attend the meeting, you can participate by using the QR Code below to make a monetary donation. All proceeds benefit Daystar Life Center.

The West Coast Florida Board thanks you in advance and wishes you a safe and healthy season.

December 2025 Newsletter Education Announcements

ASPE's December Book of the Month is the *CPD Study Guide* (eBook)

- Through **December 31, 2025**, you can purchase this eBook for **25% off** the regular member price. Just enter coupon code **bemerry** when you check out. The discount is valid on the digital edition of this publication and the coupon code can only be used once. If you are purchasing multiple items the discount will be applied only to the assigned publication.

1) MedGas Basics

- ASPE Education website, On-demand
 - Following the success of the in-person and online MedGas Workshop and continuing to fulfill the commitment to training the next generation of medical gas system designers, ASPE is pleased to announce the new MedGas Basics course. The course contains four (4) instructional videos that you can review at your leisure, and each offer 0.1 CEU upon completion.
- Bundle Price for ASPE Members \$150 or each individual class \$50 (save \$50 when you bundle!)

2) AYP Region 2 – The Tank is Just the Beginning

- Live Webinar (1 hr) – January 13 at 12 PM (EST)
- Deep dive into the engineering behind Autobriner systems, tailored for professionals seeking to understand the technical specifications and design considerations for brine system integration. The session will cover the differences between aboveground and underground system types, key design criteria, and a walkthrough of an engineering portal featuring Revit files and 3D models. Outline support process for specifiers and share lessons learned from installations to help attendees apply best practices in their own projects.
- 0.1 CEU
- Free for ASPE members!

3) AYP Region 5 – Brine Management on Autopilot

- Live Webinar (1 hr) – January 27 at 1 PM (EST)
- Explore the hidden costs and inefficiencies of traditional water softening salt management and how Autobriner's automated systems offer a smarter solution. This session will walk through the challenges of manual salt handling and highlight the key benefits of automated brine delivery. Attendees will gain insight from a real-world case study and enjoy an exclusive viewing of new explainer video.
- 0.1 CEU
- Free for ASPE members!

4) 2026 CPD Review Class

- Virtual Review Classes, Tuesdays & Thursdays, March 10, 12, 17, 19, 24, & 26; 6-8 PM (EST)
- The workshop includes a CPD practice test (a \$50 member value). **This class is not a plumbing design 101 course, and it is not intended to teach students the material required for the exam.** This class helps students learn HOW to study for the exam. Because there will be a high-level overview of the domains and content areas, this class will enable students to become aware of areas they need to focus their attention on leading up to the exam. In turn, this class will be helpful to students in their preparations for the exam.
- CEU/PDH's are NOT awarded for the classes.
- ASPE Members \$300; Non-members \$500

V.P. Education

Matthew Walker, P.E.

- 5) 2026 ASPE Convention & Expo
 - a) October 8-14 at the Oklahoma City Convention Center in Oklahoma City, OK.
 - b) Registration and costs are TBD
 - c) Opportunities for educational credits / CEU's...more TBD
- 6) As always you can find more ASPE educational information at <https://education.aspe.org/>
 - a) Read, Learn, Earn
 - **December 2025** is *Plumbing Cost Estimation* (0.1 CEU)
 - November 2025 was *Cross Connection Control* (0.1 CEU)
 - b) On-demand list is continuously updated with many options to choose!
- 7) 2026 CPDT Exam
 - a) Dates TBD; anticipated for Fall 2026 (October??)
 - b) Must fill out eligibility form to receive a link to register for exam.
 - c) Remote Proctored Exam
 - d) 3.5 hours, 100-question multiple-choice answer
 - e) ASPE Members \$225; Non-members \$450
- 8) 2026 CPD Exam
 - a) April 13-24, 2026
 - b) Must fill out eligibility form to receive a link to register for exam.
 - c) Remote Proctored Exam
 - d) 3.5 hours, 100-question multiple-choice answer
 - e) APSE Members \$450; Non-members \$675
- 9) GPD Program (Exam)
 - a) On-Demand course completion followed by examination; however, must be completed within 6 months of start date.
 - b) Open-note, 2 hours, 50-question multiple-choice answer.
 - c) 75% is passing score.
 - d) 1.2 CEU credits.
 - e) ASPE Members \$500; Non-members \$600
 - f) Note: Professional Engineers (PE) are eligible to take the GPD Program without having to take the CPD Exam as a prerequisite.

Please reach out to me for any additional questions regarding ASPE Education.

V.P. Legislative

Peter Pastore, III

Hi everyone

Recent and upcoming changes to U.S. water-heater requirements stem mainly from new Department of Energy (DOE) efficiency standards finalized in 2024. These rules significantly raise the minimum efficiency levels for both residential and commercial water heaters. For homes, the biggest change is that many common electric storage-type units will need to meet efficiency levels that, in practice, push most new electric models toward heat-pump water heater technology. These residential standards are scheduled to take effect on May 6, 2029, meaning that after that date, traditional electric resistance water heaters may no longer qualify unless they meet the higher efficiency thresholds. Gas-fired storage water heaters will also face increased requirements, likely involving improved venting or power-vent/damper systems to meet the standards. On the commercial side, new rules take effect earlier – October 6, 2026 – and will require most gas commercial heaters to use high-efficiency condensing technology.

At the same time, there has been significant regulatory and political pushback that has created uncertainty around some of the requirements. In early 2025, the DOE paused certain mandates affecting gas-fired tankless water heaters and withdrew a previously finalized rule for tankless models. Congress has also taken steps to overturn parts of the DOE's water-heater rules, although no repeal is fully finalized at this time. As a result, while the 2026 and 2029 implementation dates remain on the books, portions of the rules – especially those dealing with gas tankless units – are in flux.

For homeowners, the practical takeaway is that the market will continue shifting toward more efficient technologies, especially heat-pump water heaters for electric replacements. These units can significantly reduce energy use, though they may require more installation space, different electrical setups, and higher upfront costs. Gas units will continue to be available, but new models in the coming years may need to meet more stringent performance requirements. Future developments will depend on legal, regulatory, and political actions, so the exact landscape could shift again before the major deadlines arrive.

ASPE Membership Value

When you join ASPE, you become part of a worldwide family of plumbing engineering and design professionals and gain immediate access to their combined technical knowledge and industry support. ASPE members are leaders in the plumbing engineering industry, and joining their ranks offers invaluable networking and career-advancement opportunities. Our members benefit from ASPE’s international exposure, and our involvement in national and local legislative initiatives helps strongly convey the important role of plumbing engineers and designers in the construction industry.

In addition to sharing professional knowledge, ASPE members also like to have fun. Local ASPE Chapters and special-interest groups such as ASPE Young Professionals and Women of ASPE host social networking events throughout the year. With more than 6,300 ASPE members, a fellow professional is never far away.
